Exciting new research promises the ability to modulate sensory elements, such as light and smell. We will continue to identify opportunities and seek solutions as we strive to make the world's spaces happier and more comfortable. This is to improve people's lives with the air Daikin creates. Comfortable air fills every space in the city where people live, work and enjoy. Not only will you be comfortable, but you will be healthy, study and work will progress, and everyone will smile. We believe in the potential of air, pursue it, add new value, and deliver unprecedented air to the world. At Daikin, we discover something new every day.

Daikin has strived with strong passion to pursue solutions related to the air we live in. Here, we introduce key technologies Daikin has developed.
