DEPARTMENT OF TRAINING, PLACEMENT, CONSULTING,
INNOVATION & RESEARCH (DTPCIR)

NOTICE

All the students of diploma on EE, ECE of sessions: 2019-22, 2018-21, 2017-20, 2016-19, 2015-18, 2014-17, 2013-16 are hereby informed that **“MITSUBISHI ELECTRIC INDIA PVT LTD”** is shortly going to do online/ offline /recruitment/ Apprenticeship/ placement program.

MITSUBISHI ELECTRIC INDIA PVT LTD

The company-wide focus is clear - applying our technologies to contribute to society and enhance quality of life around the globe. We are working to create a brighter future through innovation, and to ensure a more sustainable world. In order to achieve this goal, we will continue to improve our wide-ranging products, services, and business activities to help change the planet's environment for the better. Becoming a global leading green company is our future, and it's the key in creating a greener tomorrow. Mitsubishi Electric India Pvt. Ltd. is a wholly owned subsidiary of Mitsubishi Electric Corporation with offices in 23 locations across the country including 3 Manufacturing, 8 Tech Centers and 1 R&D Center. With over 800 employees Mitsubishi Electric India Pvt. Ltd. has grown to become a company offering a wide range of innovative and high-quality products for the Indian market. This includes products and solutions for Air Conditioners, Factory Automation and Industrial Systems, Semiconductor & Devices and Transportation Systems.

Mitsubishi Electric in India supports "Make in India" which is a major new national program. Designed to facilitate investment, foster innovation, enhance skill development, protect intellectual property and build best-in-class manufacturing infrastructure. Mitsubishi Electric has manufacturing facilities in India to promote 4 businesses namely: Automotive Equipment, Elevators and Escalators, Factory Automation, and Railways. Mitsubishi Electric also supports industries with world class electric and electronic equipment through products of factory automation, low voltage switchgears and semiconductor & device. Through this stance, Mitsubishi Electric aims to support the national program and promote its vision of fostering holistic development of every country where it operates.

Mitsubishi Electric is a global leader in air conditioning systems for residential, commercial and industrial use. Challenged to create innovative air conditioning systems, our engineers develop amazingly sophisticated yet durable units with Japanese state-of-the-art technology that can withstand extreme conditions. Each product is an amazing feat in its own, delivering energy-efficient performance with minimum impact on the environment.

A wide variety of indoor unit designs and outdoor unit capacities ensures the flexibility to meet the most challenging of air conditioning needs. From aesthetic wall-mounted and floor-standing designs to ceiling-recessed cassettes, abundant options are available to match virtually any interior design. Many systems are equipped with the "I-see sensor", an original Mitsubishi Electric technology that realizes better air conditioning control. This is combined with other industry-leading energy-saving and silencing technologies to produce air conditioners that provide optimum performance and room comfort wherever they are installed.

Mitsubishi Electric's VRF air conditioning systems offer the luxury of distributed airflow and the independent control of indoor units. Installation flexibility and a wide selection of indoor unit designs and outdoor unit capacities ensure "best match" solutions for air conditioning needs, even for the most diversified requirements. Consideration for the environment during development has led to the manufacture of powerful, compact units that consume minimal energy, have a high coefficient of performance (COP) and contribute to maximum room comfort.

JOB DETAIL:

Job Role: Diploma engineer trainee (DET).

Educational Qualification: Diploma of EE, ECE.

Diploma passing year: sessions: 2019-22, 2018-21, 2017-20, 2016-19, 2015-18.
