NOTICE

OIL INDIA LIMITED

Oil India was founded on 18 February 1959, with its registered office in Duliajan, Assam, as a privately-held oil exploration company. Burmah Oil Company originally held two-thirds of the stock and the Government of India (via the Office of the President) held the rest.^[4] In the Spring of 1961 the company became publicly listed, and later that year the Government of India acquired 50% ownership interest. In 1981, the Government of India acquired 100% of the equity interest in the company. The company was created to exploit the oil fields of Naharkatiya and Moran in north-eastern India, which had then been just recently discovered.

In 1961, construction of the company's first gas-powered power plant was completed in Duliajan, Assam. IN 1962, a 401 km (16-inch diameter) pipeline from Duliajan to Guwahati was completed. The following year, a 756 km (14-inch diameter) extension to the pipeline from Guwahati to Barauni in Bihar was completed.

A 1,157-kilometre (719 mi) long fully automated telemetric pipeline with 212 kilometres (132 mi) of looping and a total capacity to transport over 6.0 million tones per year remains the lifeline of the company. Commissioned in 1962, the double skinned crude oil pipeline traverses 78 rivers including the Brahmaputra River as it meanders through paddy fields, forests and swamps. There are 11 pumping stations, 18 repeater stations and two terminals at Numaligarh and Rongapani in Udalguri district. The engines that drive the giant pumps along the pipeline have more than two hundred thousand hours of service and established a world record of machine hours

OIL completed the construction of a 660-kilometre (410 mi) pipeline from Numaligarh to Siliguri in November 2007. The company also sells its gas to different customers in Assam: Brahmaputra Valley Fertilizer Corporation Limited (BVFCL), ASEB, NEEPCO, Indian Oil Corporation's retail Assam Oil Division, and APL as well as to the Rajasthan Rajya Vidyut Utpadan Nigam formerly part of the Rajasthan State Electricity Board. It also produces liquefied petroleum gas (LPG) at its plant in Duliajan, Assam.

OIL along with Indian Consortium partners IOCL and BPRL acquired two producing assets in Russia - 23.9% stake in Vankorneft, Russia and 29.9% stake in Taas-Yuryakh, Russia. These assets are held through OIL's WOS Oil India International Pte. Ltd. incorporated in Singapore.

TYNGD is a producing asset with current production of 1.13 MMT and expected peak production of 5 MMT by 2021. It is one of the largest green fields located in Eastern Siberia. TYNGD is ramping up required infrastructure to meet peak production level.

Vankorneft has two licences - Vankor and North Vankor. It is a giant oil & gas producing field located in Eastern Siberia, and contributes to about 10% of Rosneft's entire oil production. The commercial agreements for sale of oil and gas are in place for the asset. Vankorneft started commercial production from 2009 and all infrastructure is in place.

In License-61 in Russia, the development and production activities are undergoing at present. OIL is taking an active role in the development activities and supporting the operator of the license, M/s Petroneft Resources by providing expert opinions in selected areas.
